

**NON-SURGICAL  
ORTHOPAEDICS, P.C.**  
*Specializing in Spine Care & Pain Management*

## Practice News from Non-Surgical Orthopaedics, P.C.

Non-Surgical Orthopaedics, P.C. is one of Atlanta's premier non-surgical orthopaedic practices and an industry leader for the non-invasive treatment of back pain, neck pain and other orthopaedic injuries.

### CERVICAL FACET JOINT INJECTIONS

The facet joints connect each vertebra in your spine to the one above or below it. In some cases, your back or neck pain may originate in these joints. Facet joint injections can be used as a therapeutic and diagnostic treatment to target the joint causing you pain. During this treatment, you will receive a local anesthetic before a needle is guided by X-ray imaging into the target joint.

### HOW DOES A STRESS FRACTURE OCCUR?

Stress fractures are injuries caused by overuse of the muscles. They are particularly common among athletes who participate in activities that tax the lower body. Proper diagnosis of these injuries is the first step in developing an effective treatment and prevention plan.

**Our Doctors are now  
performing  
Prolotherapy for acute  
& chronic pain.**

### Causes of Stress Fractures

Unlike acute fractures, stress fractures occur as a result of lower, repeated force.
