

Practice News from Non-Surgical Orthopaedics, P.C.

Non-Surgical Orthopaedics, P.C. is one of Atlanta's premier non-surgical orthopaedic practices and an industry leader for the non-invasive treatment of back pain, neck pain and other orthopaedic injuries.

RADIAL NERVE DYSFUNCTION

Radial nerve dysfunction is a problem with the radial nerve. Damage to the radial nerve leads to problems with movement or sensation of the back of the arm (triceps), forearm, or hand.

Causes

Radial neuropathy occurs when there is damage to the radial nerve, which travels down the arm and controls movement of the triceps muscle at the back of the upper arm. It also controls the....

BOTOX SHOWS PROMISE AGAINST PERSISTENT NECK, SHOULDER PAIN

Botox injections, long used to smooth away wrinkles, might also soothe chronic neck and shoulder muscle pain, new research suggests. This type of persistent pain "is a common disorder that potentially may cause functional impairment in our patients," explained one expert not connected to the study, Dr. Robert Duarte. "In addition, neck pain may provoke

Our Doctors are now performing Prolotherapy for acute & chronic pain.

headaches," said Duarte, who directs the Pain Center at the Cushing Neuroscience Institute, part of the North Shore-LIJ Health System in Great Neck, NY.

In the study, 118 patients with pain lasting more than two months who had already tried other pain medications were given injections of either botox (botulinum toxin type A) or a placebo.

Those who received botox had a much greater reduction in pain scores than those who received the placebo, according to a team from the University of California, Los Angeles.
