**NON-SURGICAL
ORTHOPAEDICS, P.C.**
Specializing in Spine Care & Pain Management

Practice News from Non-Surgical Orthopaedics, P.C.

Non-Surgical Orthopaedics, P.C. is one of Atlanta's premier non-surgical orthopaedic practices and an industry leader for the non-invasive treatment of back pain, neck pain and other orthopaedic injuries.

How the iPad is Effective in your Doctor's Office

Modern doctors have always been on the front lines of late-breaking technology. In fact, most of all the recent medical advancements have been made in stride with the development of technology.

Yet, one invention - once thought for play and entertainment - is proving to be an invaluable tool within the

doctor's office.

The Apple iPad, with its lightweight design and user-friendly applications, is quickly becoming a necessity in the medical world. Used as a tool for education and medical record sharing, doctors using iPads are able to improve the efficiency of their office while advancing patient care. [Read More](#)

Food and Fibromyalgia

Did you know the food you eat can affect the natural rhythms of your body? For most individuals, food is used for nourishment, fulfilling our basic needs and pleasurable satisfaction.

And yet, some foods can have an adverse effect on those who suffer from Fibromyalgia, a common condition characterized by long-term, body-wide pain and tender points in joints, muscles, tendons and other soft tissues. [Read More](#)

17 Years Of Excellence

At Non-Surgical Orthopaedics P.C., we treat problems related to the back and neck such as herniated discs and sciatica. We also treat other orthopaedic conditions including tendonitis, fibromyalgia, arthritis and repetitive motion injuries. Our goal is to eliminate pain

The staff at Non-Surgical Orthopaedics wish everyone a healthy and happy New Year.
