

**NON-SURGICAL  
ORTHOPAEDICS, P.C.**  
*Specializing in Spine Care & Pain Management*

## Practice News from Non-Surgical Orthopaedics, P.C.

Non-Surgical Orthopaedics, P.C. is one of Atlanta's premier non-surgical orthopaedic practices and an industry leader for the non-invasive treatment of back pain, neck pain and other orthopaedic injuries.

### WHY ACL INJURIES ARE MORE COMMON IN WOMEN

Although the knee's only job is to bend and straighten the leg, it requires a vast collection of bones, muscles, tendons and cartilage to pull off this simple feat. And because it's designed to stick to such a rigid path of movement, any little tweak puts all of those moving parts at risk for injury.

The anterior cruciate ligament (ACL) is an especially delicate piece of hardware. The ligament, which runs through the center of the knee and ensures that the thigh tracks properly with the shin bones, is highly susceptible to rips and tears.

### THE MOST COMMON REPETITIVE MOTION INJURIES

Some injuries such as ACL tears typically occur due to sudden traumatic motion. Other injuries can develop over months or years, and are referred to as repetitive motion injuries. A repetitive motion injury can be just as painful as any sudden trauma, and requires immediate medical intervention.

**Our Doctors are now performing Prolotherapy for acute & chronic pain.**

A repetitive motion injury can be just as painful as any sudden trauma, and requires immediate medical intervention. Because repetitive motion injuries result from recurring usage of a particular set of muscles, ligaments, and tendons, it's important to seek help from a pain management specialist.....

## 20 Years Of Excellence

As we begin our 20th year at Non-Surgical Orthopaedics P.C., we would like to take this opportunity to thank all those who have helped make us a success. For our loyal referring physicians and providers, we wish you a happy new year and thank you for your never-ending support. We would also like to recognize our outstanding staff and in 2013 we will continue to provide the best customer service around.

At Non-Surgical Orthopaedics, P.C. we treat problems related to the back and neck such as herniated discs and sciatica. We also treat other orthopaedic conditions including tendonitis, fibromyalgia, arthritis and repetitive motion injuries. Our goal is to eliminate pain with a strong emphasis on injury prevention.

Non-Surgical Orthopaedics P.C., is committed to providing outstanding customer service and professional patient care. Please visit our website for more information at:
