**NON-SURGICAL
ORTHOPAEDICS, P.C.**
Specializing in Spine Care & Pain Management

Practice News from Non-Surgical Orthopaedics, P.C.

Non-Surgical Orthopaedics, P.C. is one of Atlanta's premier non-surgical orthopaedic practices and an industry leader for the non-invasive treatment of back pain, neck pain and other orthopaedic injuries.

This Year Stop Smoking with Acupuncture

With a new year come fresh resolutions filled with the nasty habits that you'd like to quit. For many smokers who are looking to kick their smoking habit once and for all, acupuncture just might be the perfect remedy.

Derived from the Chinese who practiced the technique with sharpened stones, acupuncture today consists of fine needles that are inserted into the body to alleviate various problems or conditions and mostly promote relaxation and peace of mind. [Read More](#)

Reminder: February is American Heart Month. Keep your heart in check with regular Blood Pressure Testing.

Topical Pain Products Review

What do you do once pain reliever medications don't work for that intense headache or excruciating back pain that won't disappear? Go ahead and try a topical pain reliever to alleviate your pain! Before you go out and buy the first one you see at your local drugstore, is some information that will help you choose the right one for you and your pain staking symptoms. [Read More](#)

17 Years Of Excellence

At Non-Surgical Orthopaedics P.C., we treat problems related to the back and neck such as herniated discs and sciatica. We also treat other orthopaedic conditions including tendonitis, fibromyalgia, arthritis and repetitive motion injuries. Our goal is to eliminate pain with a strong emphasis on injury prevention.

Non-Surgical Orthopaedics P.C., is committed to providing outstanding customer service and professional patient care.

Georgia Institute for Clinical Research, L.L.C

Our [Clinical Research Department](#) is participating in clinical trials for the following conditions:

- Osteoarthritis (hips and knees)
- Low back pain
- Shoulder pain
- Acute and chronic pain
- Opioid induced constipation (OIC)
- Diabetic neuropathy
- Muscle spasms

We currently have a variety of study opportunities for patients and others interested in participating in clinical trials. Typical requirements for participation in these studies include the criteria outlined below:

- Males / Females, ages 18-75
- No diagnosis of cancer within the past 5 years
- No diagnosis of rheumatoid arthritis or gout
- No history of seizure disorder or epilepsy
- No history of gastric bypass surgery
- No corticosteroid injections within past 3 months
- No hyalgan injections within past 6 months
- Willingness to convert current pain relief regimen to an Investigational Product

Please contact us if you are interested in learning more about these clinical research opportunities at 770-421-2030.
